

# *Golden's Rose House March*

MARCH 2018 - 9TH EDITION

## *The Cuenca Rose Variety*

"To 'Channel Orange' is to truly be free, to be you."  
-Frank Ocean

The spring equinox falls in March, marking the official start of the season! We're celebrating the end of winter with Cuenca, a delicate and freeing shade of orange.

Cuenca is ideal for the sunnier days that lie ahead. We paired this rose variety with colorful yet, soft tones to emulate the spring season.

Pairing Cuenca with lavender and peach, for example, allows the roses to stand out while still showcasing the bouquets' delicate features.

# *Cuenca Rose Variety: Delicate and Free*

This March, add Cuenca to your spring arrangements. This rose variety will do wonders to your event's color palette!
