The Jade Rose Variety

"Jade is precious not because it is rare, but because the quality of jade corresponds to virtue."
-Confucius

This light green rose variety, Jade, holds a special place in our hearts. In many cultures, especially for the Chinese, the Jade crystal is known for its positive energy and uplifting qualities.

Both Light and Harmonious, Jade will give you that extra push you need and serve as a good luck charm. It reminds us of the beauty and brightness of nature, and prepares us for what is to come in the Spring.

Use Jade in your Valentine's Day bouquets for a unique approach to the holiday.
